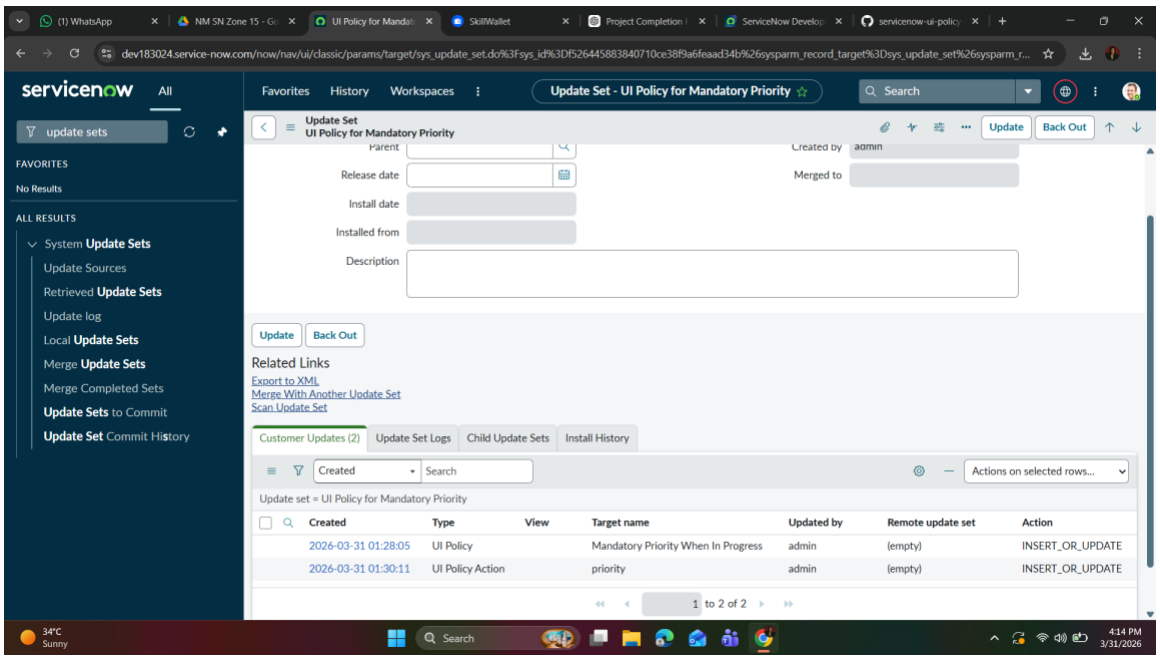
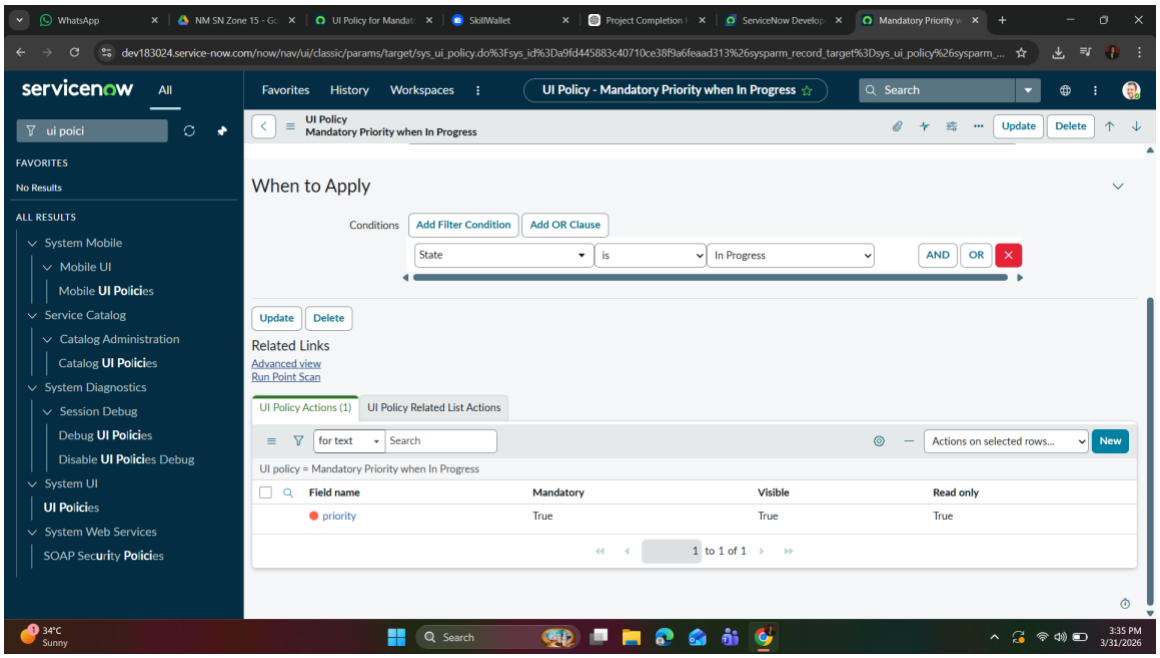
Enforcing Mandatory Fields Using UI Policies and Migrating Changes with Update Sets

1. Check update



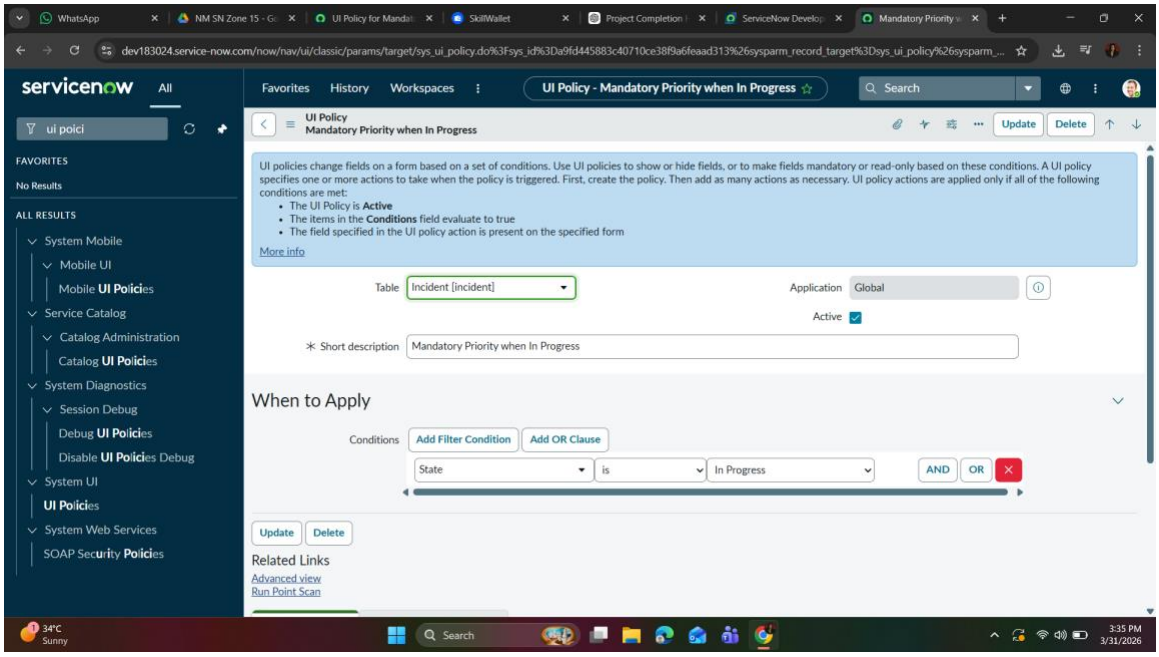
This screenshot represents how Update Sets track and store UI Policy changes for migration in ServiceNow.

2.Create UI policy

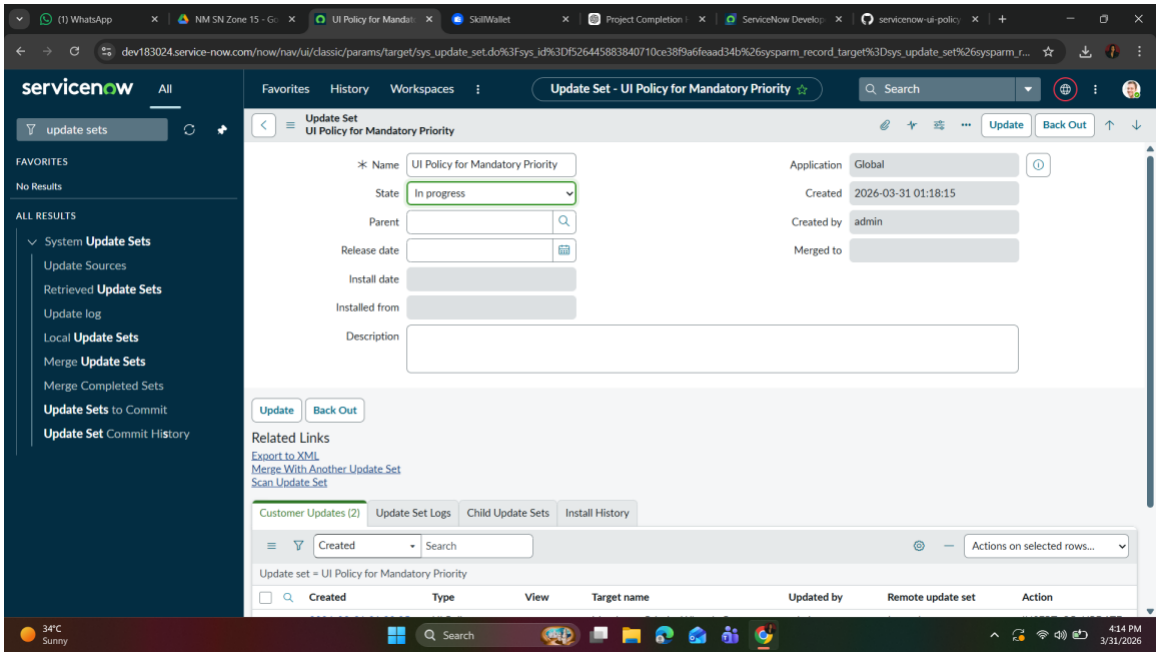


This screenshot shows how UI Policies enforce mandatory fields in ServiceNow forms.

3. **Create UI policy**

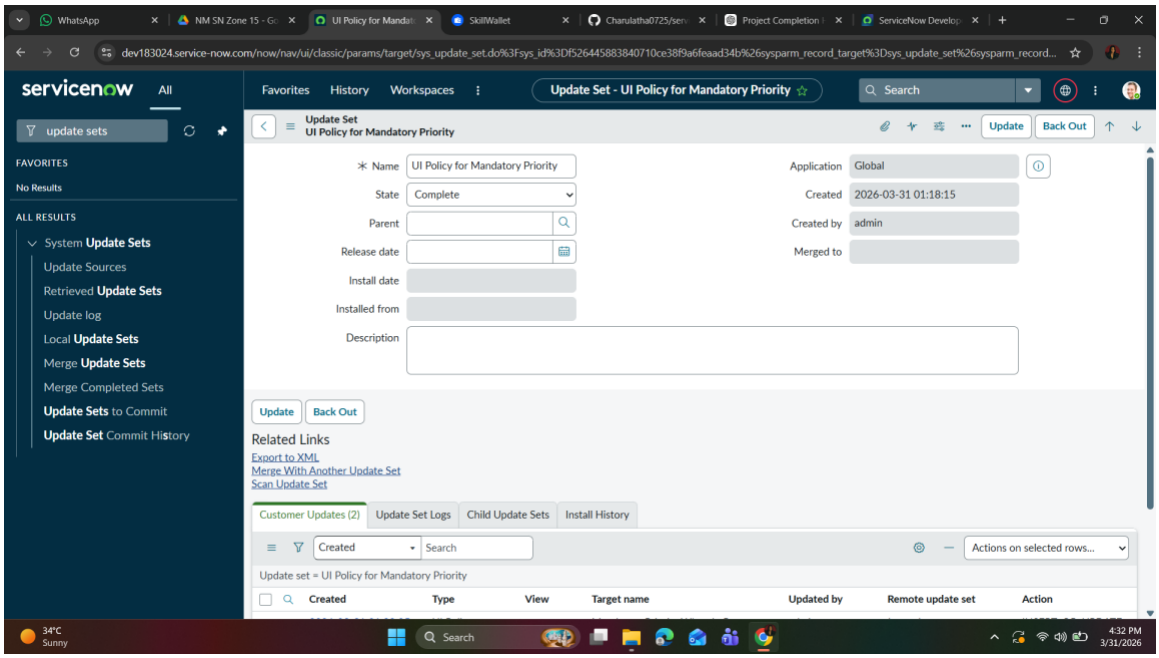


2. **Create Update**



This screenshot shows an Update Set used to track and manage UI Policy changes in ServiceNow.

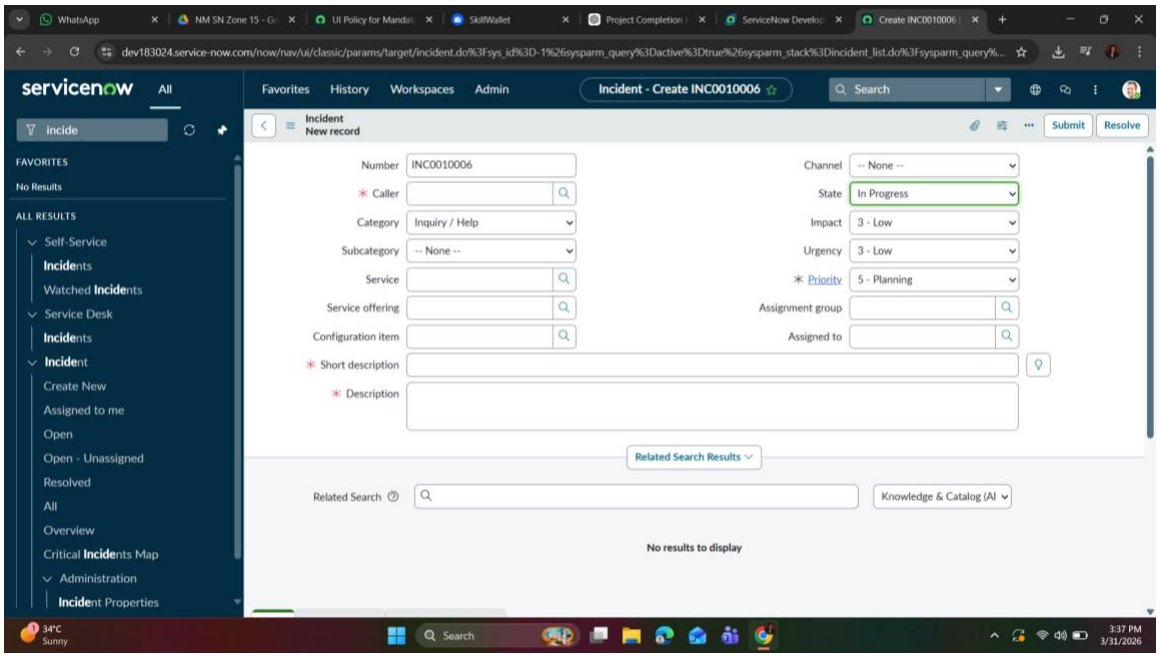
6. Export and Update the Update set



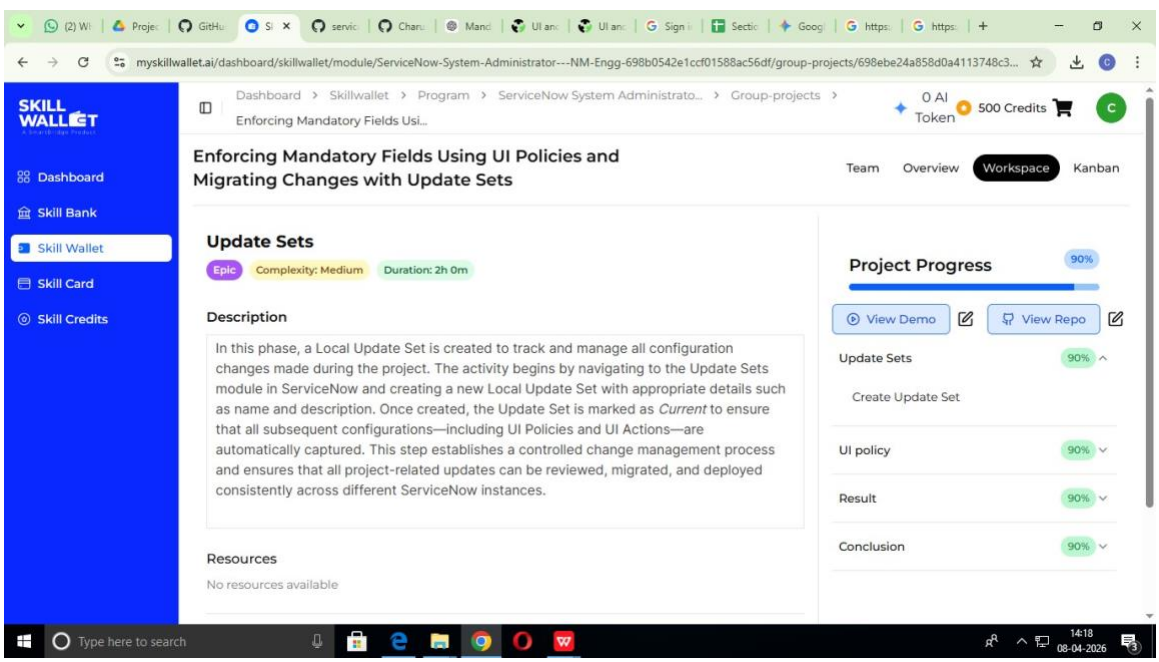
This screenshot shows a completed Update Set ready for migration in ServiceNow.

7. Testing Incident

Final step in servicenow platform for Enforcing Mandatory Fields Using UI Policies and Migrating Changes with Update Sets.



9. Final Output



Displays the final output .

10. Conclusion

The project **"Enforcing Mandatory Fields Using UI Policies and Migrating Changes with Update Sets"** in ServiceNow helps ensure data accuracy and system reliability. By using **UI Policies**, important fields are made mandatory, preventing incomplete form submissions. **Update Sets** enable efficient tracking and migration of changes between instances. Overall, this solution improves data quality, reduces errors, and ensures smooth deployment of configurations.
